## ABOUT ME

I am a front-end developer focused on clean, responsive, and functional design. I work independently while traveling through the Americas in a motorhome with the Traveller Coder project. I am passionate about creating intuitive, modern, and effective web experiences. I am currently expanding my knowledge in Full Stack development.

## TECHNICAL SKILLS

HTML5, CSS3, JavaScript (ES6+)
React.js
MySQL (basic to intermediate)
REST APIs
Responsive Design / Mobile First
Git & GitHub

## SOFT SKILLS

Problem solving
Adaptability and autonomy
Effective communication
Remote teamwork
Organization and discipline

## EDUCATION

Digital House
- Full Stack Web Development - 2021
- Professional Tech Developer (in progress) - 2024

## EXPERIENCE

Freelance Frontend Developer - 2021 to present
Although I have not worked under formal employment, I have developed real-world projects and practical challenges that demonstrate my skills in UI design, API consumption, state management, and responsive layouts.
